Open	10/28/03	Grad Requirments Worksheet in Crystal	Issues/Action Items	moraja03
----- [10/28/03 04:39] created by moraja03 -----				
After Jason Q. makes the summary table with all of this data, a crystal report can be made to produce an unofficial report of whether or not a student has met various grad requirements				
----- [03/23/04 01:15] by moraja03				
There won't be one all-inclusive summary table. A basic table structure has been made. Designs for the layout of the webpage need to be made. Since it will probably be some sort of a tabular design in the student profile section of the site, a new GUI for the website needs to be thought up.				
----- [03/31/04 11:44] by moraja03				
The new GUI has been implemented. The end result for this will be the web portion containing a tabbed navigation to each of the requirement categories with the ability to "approve" suggested requirements met. In addition to the web portion, a report will be designed which will have the entire report in a single printable pdf.				
Open	11/7/03	Add categories to meetings: focus group, guest speaker, field trip, and change group activity to group guidance	Issues/Action Items	moraja03
----- [11/07/03 12:49] created by moraja03 -----				
Also, import the 2002)2003events.xls sheet.				
Open	11/7/03	Young Scholarship Report	Enhancements	moraja03
----- [11/07/03 12:50] created by moraja03 -----				
Canned Report with criteria: Race, Grades, Attendance, DOB, SSN, Home addy/phone, Guardianship info, Proficiency scores (most recent OPT), Lau code (english not first language). Due in April.				
Open	11/7/03	ACT/SAT import system with exception report	Enhancements	moraja03
----- [11/07/03 12:55] created by moraja03 -----				
Import RAW test score files. Match and import those that CAN. Produce and EXCEPTION REPORT/FILE of those that did not match and get entered.				
----- [01/22/04 03:36] by moraja03				
Must talk more with Jason and possibly Martin. Possibly not have the program parse the text file at all but leave that to Jason/Lynda every time. The Program to write would simply take what was already in some temp/staging table and then produce an exception list and move the good things over.				
Open	1/6/04	Enhance Graduation follow-up report	Enhancements	moraja03
----- [01/06/04 10:25] created by moraja03 -----				
The follow-up report is not specific enough. It needs to be broken down by college names, military branch, and type of work. Perhaps this needs to be rediscussed to determine whether we need to keep the partial breakdown report (# of students in college, military, and work by school).				
----- [01/27/04 10:26] by moraja03				
Lynda Kane said that this report may actually be unnecessary.				
Open	1/13/04	Enhance scholarship entry to pre-populate common scholarships and grants	Enhancements	moraja03
----- [01/13/04 02:26] created by moraja03 -----				
Open	3/4/04	Expectant Graduates page needs enhancement	Enhancements	moraja03
----- [03/04/04 10:48] created by moraja03 -----				
This page uses data that was loaded once from a Lynda Kane query, however, it doesn't have the currently correct data. In order to have this page continue to operate correctly, it needs to be rethough / redesigned.				
The temporary solution is to take the page down until the data is correct.				
----- [03/31/04 11:43] by moraja03				
The page is active, but the link to it has been disabled
